

### Description

The electrical equipment of the machinery (control cabinet and the machine's electrical wiring) must comply with **EN 60204-1**. This standard takes account of safety aspects of the machinery, as well as technical aspects of the equipment.

**i9s checks that the electrical equipment** of the machinery conforms to the standard's requirements.

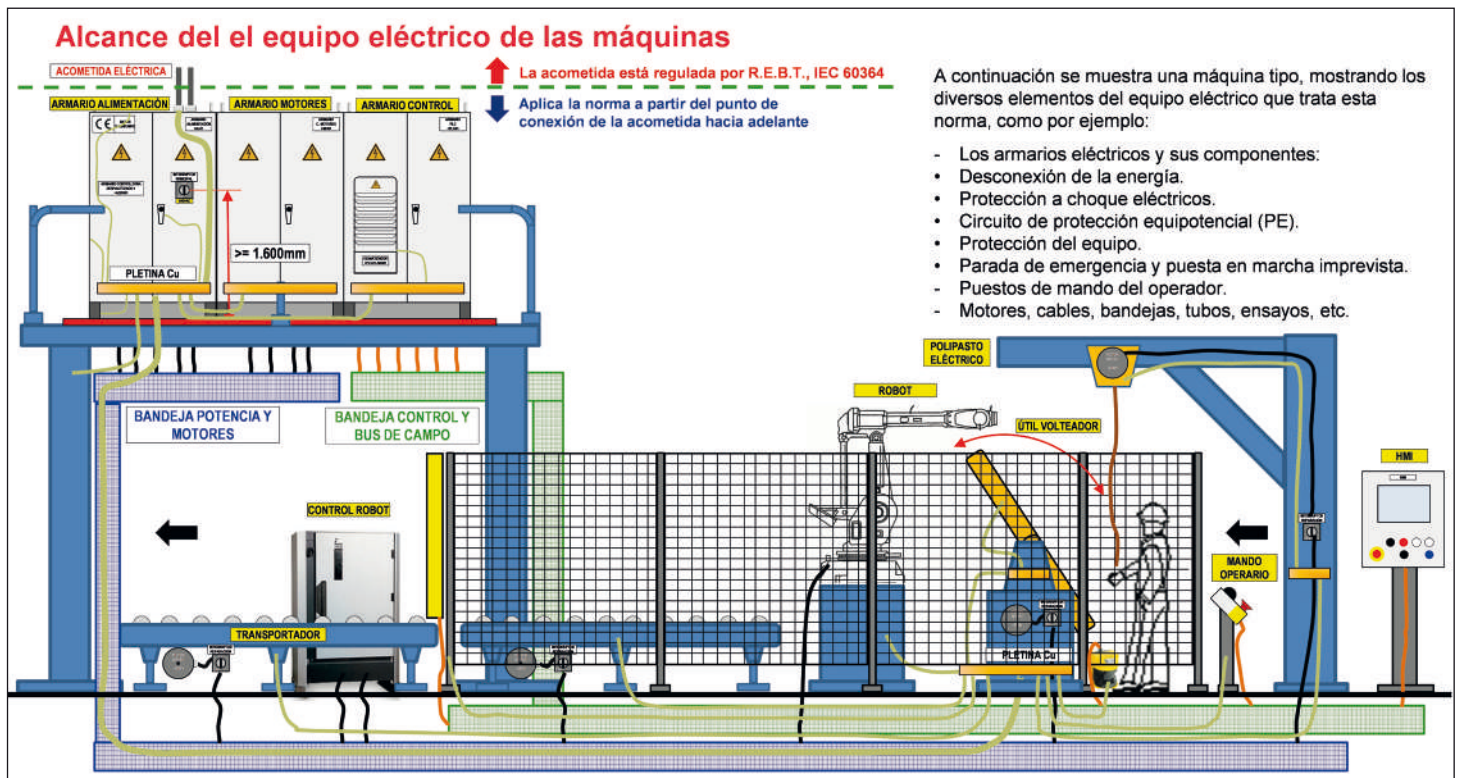

### Specifications

The inspections are based on the following standard:

- **EN 60204-1** *Safety of machinery. Electrical equipment of machines. Part 1: General requirements.*

### Examples

Examples are shown below:

Example of electrical equipment of a machine

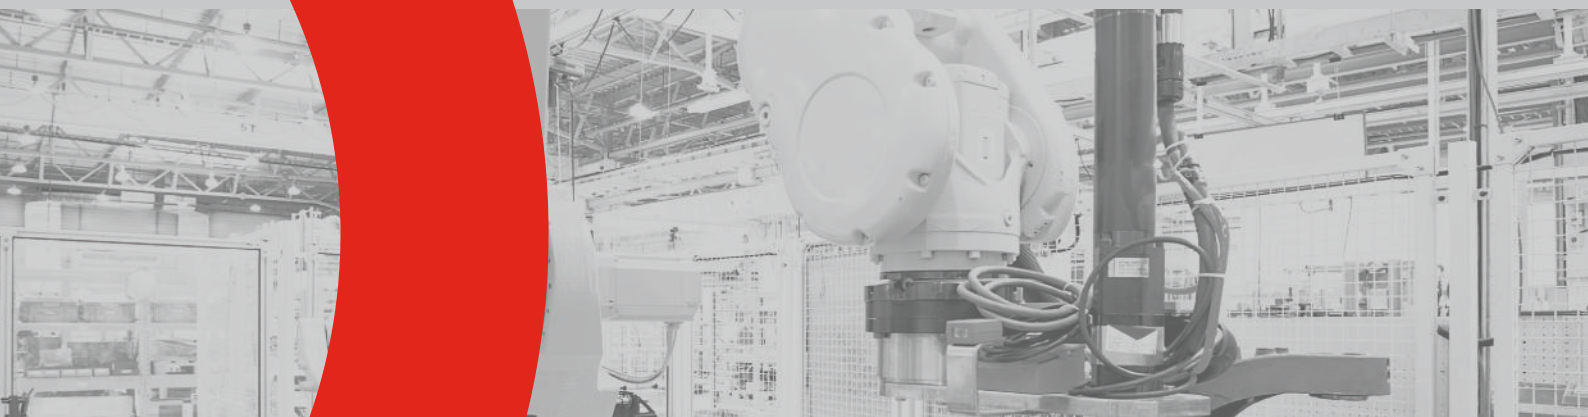

### Scope of the inspection

Checklist according to the standard.

### Documentation

The following is delivered with each inspection:

- A PDF format inspection form.
  - A list of possible Non-Conformities found.
- (In Spanish. Other languages on demand.)
